

# ENGAGING EVERY STUDENT

*At Scottsdale Christian Academy we believe that God has created each child with unique talents and abilities, and no matter what those are we desire to create a culture where every student loves to learn!*

## **EXCEL**

**Grades 2-5**

---

Instruction is dedicated to providing a challenging blend of higher level thinking activities and a specialized curriculum that will stimulate the minds of our students. Students are invited to be a part of this program through the of Cognitive Abilities Test and other areas of consideration by teachers and administration.

## **SOAR**

**Grades 6-8**

---

Middle School Soar offers students who demonstrate previous high achievement in specific areas of strength the opportunity to experience the extended program of studies at greater levels of depth and complexity. The MS Soar elective will be enrichment in nature. It will also offer students an opportunity to develop relationships and collaborate with other high achieving students across the grades.

## **ADVANCED PLACEMENT, HONORS & DUAL ENROLLMENT**

**Grades 9-12**

---

Middle School Soar offers students who demonstrate previous high achievement in specific areas of strength the opportunity to experience the extended program of studies at greater levels of depth and complexity. The MS Soar elective will be enrichment in nature. It will also offer students an opportunity to develop relationships and collaborate with other high achieving students across the grades.

## PATHWAYS\*

Scottsdale Christian Academy offers services and accommodations for students with mild learning disabilities through the Learning Resource Program called Pathways. Students in the Pathways program are supported to help them grow to their God-given potential. We believe that ALL students can learn and are uniquely created and gifted by God; we also believe that He has a purpose and plan for their future.

### Grades 1-5

Pathways teachers will manage students AEP's (Accommodative Education Plans), set up team meetings which include parents, student, teachers, counselor, and if appropriate, related service providers. Teachers will make appropriate accommodations to the curriculum as per the AEP to provide the optimal learning experience for each student. Student's needs will be met in a more individualized way.

### Grades 6-12

Teachers will provide educational planning, goal setting, time management, organization, and learning strategies.

Students in the Pathways III program develop strong, collaborative relationships through positive, confidential communication. We will create a supportive environment and encourage students to share their accomplishments, pursue their dreams, and to seek assistance in overcoming barriers to success.
